

Tuesday, March 14, 2023

Dear Colleagues,

Monash Health Pathology will be pausing PAI testing as of April 2023:

The kit that we use for Plasminogen Activator Inhibitor testing has been discontinued and requests are minimal.

We will be pausing testing while the clinical utility of this test is reviewed and other kits on the market are assessed.

A/Prof Sanjeev D Chunilal
MB, ChB FRACP, FRCPA.

Unit Head Laboratory Haematology
Monash Pathology
