

Equipment

- x3 sterile containers, provided (pictured)

Safety Precautions

- Nil

Instructions

Collect specimen before consuming food or drink.

1. Early morning sputum sample is required to be collected on three consecutive days.
2. Cough to ensure sputum, and not saliva or nasal discharge, is collected.
3. Collect the sample into the sterile containers provided.
4. Securely replace the lid
5. Write your Name, Date of Birth and Gender, along with collection date and time on each container.
6. Ideally, specimens should be delivered to the laboratory within one day of collection but if this is not possible, refrigerate the first two samples until third sample is collected.
7. Bring the request form from the doctor and all three samples back to the Pathology rooms on day three.
